

Do you care

about vital food from a healthy earth?

Then please join us for this lively course on Bio-Dynamic gardening and farming. The Bio-Dynamic Method is one of the original approaches to organized organic farming worldwide. Bio-Dynamic supports plants by creating a healthy soil and working actively with the life-giving forces of nature. The Bio-Dynamic compost preparations play a central role in this unified approach to agriculture. During this course we will learn about the Bio-Dynamic preparations and principles. Preparation making, Introduction to farm and fields, course participants may engage in making Barrel Compost and also how to applying preparations to the fields.
